

*The 10th Annual*

# PLATINUM ALLIANCE

*All Breed Bull & Female Sale*

**12 Noon CST**  
**December 7, 2024**  
Tennessee Tech University  
Hyder-Burks Pavilion  
Cookeville, Tennessee  
[www.PlatinumAllianceBulls.com](http://www.PlatinumAllianceBulls.com)

## *Welcome to the 10th Annual Platinum Alliance Bull and Female Sale!*

We have an excellent offering of bulls and females for you on December 7th. The cattle will be available for viewing on video in mid-November at [www.platinumalliancebulls.com](http://www.platinumalliancebulls.com), and in person on Friday afternoon December 6th. These cattle are great quality, and from herds that are productive with good health programs. The cattle are pictured for you in their working clothes, and are ready to perform in your program.

All the mature cattle will be dewormed, double vaccinated for respiratory diseases, colostridium, vibriosis, leptos., have 840 EID tags, and negative testing for PI-BVD and Johnes. All bred females will be pregnancy checked, and all bulls will have passed a BSE, and any non-virgin bulls will have a negative Trich. test. Some of the bulls already have Genomic EPDs, and we have several others that will have results back by sale day. There will be a floor price of \$3000 on all bulls. Many of these bulls and females qualify for TAEP, and are a great investment for you. Please check the webpage [www.platinumalliancebulls.com](http://www.platinumalliancebulls.com) for updates, more pictures, and videos. We hope to see you the first week of December, but if you are unable to attend online bidding is available thru [www.kemmerauctioneers.com](http://www.kemmerauctioneers.com) website. Please feel free to give us a call with any questions.

Thank you for your interest,  
Amanda Houser  
931-267-1802

### Refreshments

Concessions available sale day.  
Online bidding  
www.kemmerauctioneers.com

### Sale videos & Photos

www.PlatinumAllianceBulls.com

### Trucking

Truckers believed to be reliable will be available to assist you in shipping your purchases.

### EPDs

All EPDs were current as of November 1st.

### Terms & conditions

All cattle sell under the suggested terms and conditions of the respective breed association in which they are registered. Registration papers will be transferred at the seller's expense. Buyers must provide name and address for transfer. Animals cataloged as "commercial" are not registered with any breed registry; therefore, buyers will not receive registration.

### Herd health

All cattle will be accompanied by proper health certificates for immediate interstate shipment. All cattle have been tested negative for PI-BVD & Johnes and sell current on vaccinations and dewormed. All service age bulls will have passed a breeding soundness exam and are guaranteed satisfactory breeders.

### Liability

All persons attending this sale do so at their own risk, legal or otherwise, in regards to their general safety and the behavior of the animals. No individual nor group or entity associated with cattle ownership, the sale management, sale staff, sale site, nor the university assumes any liability for any personal harm, property loss or damage, or injury from any cause, including but not limited to accidents, act of violence, or natural disaster.

The Bold Ruler sons are my favorites in this calf crop! They came small 70-80 lbs, most of them born to heifers, they have performed well very right on thru yearling. We think they have the extra muscle and length it takes to add those to scales when it really counts, on sale day. This bull should work on small cows or heifers without sacrificing performance or muscle.

If lots 15&16 hadn't been twins they probably would've started at 80-85 lbs, but they didn't stay tiny long! Their TNT Pride dam did a great job feeding the both of them for quite some time. We had a loss later that allowed us to graft one of them onto another cow and then the race was on. Bravo is the more massive of the 2 now and is halterbroke.

If you need to moderate frame, add fleshing ability, and muscle look up Lenny! It would be hard to pack any more muscle on this one! He looks just like his dam a 1400 lb medium frame cow, whose always at a BCS of 6+, breeds on the first service, and brings in an impressive calf at weaning. We don't feed our fall calving cows anything but hay, and they have to raise a calf all winter on that and be bred to calve the next fall even as a first calf heifer. This bulls family does and makes it look easy!

Latham is another of the Advantage sons that's been off the charts on performance! He also has the length, depth, width, and thickness that it takes to pack that many pounds on in such a short time. This is the high performer of the group for both weaning and yearling and his Cowboy Cut dam is not only cranking out high performing calves but she is doing it with a calving interval of 362 days. You just don't find high performance, efficiency, and fertility in the same package very often.

This coming 2 yr. old is one we used on all our heifers last year, & we are excited about his calves! Jackson has shown him for 2 seasons, & he was always described as being a long spined, sound made bull with good muscling. We wanted more females from this great cow family, so we used him for a season, & now we are ready to let someone else put guy to work! Make your own field full of baldie front pasture females, & sale topping calves with this bull.

Release Me has an excellent pedigree and she had a beautiful heifer calf (4/30/24) by MF Handsome. We are struggling with offering this as a 3 in 1, or keeping her heifer calf. She is bred back to RS-ROPER K65 for a spring calf and should be a great mating that will be a hit. You wont find a better mama and cow that produces great babies that will make you money. She is very docile and will eat out of your hand. Check out her EPDs and take her home.

Diamond is a very docile cow, that will eat right out of your hand. She is a great mama that milks great, and has done a great job raising calves. She is bred to our herd bull MF Handsome and will probably be a baldy or blaze face. We have never had to pull a calf from him and his calves grow out and perform well. This is one mama you will be glad to take home to work for you.

*Lots are available for viewing after  
2:00 PM, Friday, November 6*

If you like big massive easy fleshing brood cows that raise high performing calves don't miss out on Bonnie! She has raised 8 calves for us with a WW Ratio of 108! She is a homo. black Lemmon Newsline daughter that's been one of our most profitable cows. Her only fault...always a bull calf! Only in the sale because she is calving a little late this year. Sells exposed to TTU Stetson (ASA#3828649) 1/1/24-4/12/24 or TTU On Target (ASA#4153302) 4/12/24-7/1/24.

Please note the age on this female and then take a look at the length and capacity she has on a great set of feet and legs. Great performance weaning 10 calves already for us with WWR of 107 and a 360 day calving interval. Last calf crossed the scales at 704 lbs so she is still doing her job well! This one could be carrying around the next high performing bull for this sale. Sells bred to TTU Stetson (ASA#3828649) due around sale day.
