The Life

"We have two lives, the life we learn by and the life we live by." - (Movie) 1984: The Natural

I take those words seriously, for I feel in the cattle industry and/or even our own personal lives, we face those challenges often.

We see the up and downs in the cattle market; we see the adverse weather - fires, blizzards, floods; we face our choices every year in the beef industry, like did we make the right choice? what or how do we do it differently? or how do we fix it so that it doesn't happen again?

We can't go back and change time, but we can try make the better choice for the future and to make it a brighter, more prosperous place - making our jobs easier on the ranch and making our cows work for us.

Choosing your cattle for the future is where I want to be, to be a part of and to continue to improve, to give our customers the best product we can. I believe in the program we are promoting, and I believe in helping your herd, as well as mine, each and every year.

I'm thankful to be a part of the cattle business and to continue to make your herd as prosperous as we can in the future.

The yearling bulls selling this year will be the best set of bulls we've sold to date. They are full of growth; they are high weaning weights and high yearling weight set of calves. Color testing results will be coming closer to sale date.

The extra-age bulls in the sale are in great condition, with the most recent weight taken on 12.17.24. Many of these excellent bulls were used in service for the commercial heifers selling in this sale, and many were leased out to neighboring herds.

We hope that Bell Simmentals can assist you in your new Bell Bull or female purchase, and we continue to stand behind our program and appreciate all the old and new customers for the future - for the life we live by.

*God Bless,
Travis Bell*
