

W/C **Marksman** 7021M

Simmental

- Sired by the \$110,000 OMF Journeyman J24 and out of a new up-and-coming donor from the Werning program noted as the very best heifer from their 2019 calf crop, 7021M was our selection. 7021M was a member of the featured set of full brothers regarded as one of the most impressive set of flush brothers ever offered at W/C.
- 7021M rightfully garnered the sale-topping price at the 2025 Werning Cattle Company Annual Production Sale as many cattlemen took note of his incredible look from the side paired with true herd bull power and performance.
- Not only does he look the part, but he has the numbers to back it up with seven EPDs ranking in the top 20% of the breed or better. We certainly anticipate Marksman 7021M to make his mark on the breed.

WHF **Point Proven** H45

Simmental

- Point Proven is just what we have been waiting for. He is the perfect blend of elite phenotype and genotype.
- He is a proven Calving Ease sire ranking in the top 2% for CE and Top 1% for BW making him the ideal choice to use on heifers to add phenotype without sacrificing genetic merit.
- Point Proven is royally bred, combining two of the most dominant donors within the breed — Summer 365C and Delilah 45D — into one pedigree. Expect daughters to maternal in their look, build and design.
- Until now semen has been limited, but now is the opportunity to use this breed-leading sire to create generational females as well as males that are easy to market. Point Proven has genderSelected™ female semen available.
